

Unparalleled hygiene for outstanding results

3 Pullman Barrier Washers

Put yourself in the hands of experts

When hygiene is critical, consistent practice and discipline are a must: the dirty linen is loaded on one side and the clean linen is unloaded from another door opening into a separate room, giving functional separation and assisting in RABC (Risk Analysis and Biocontamination Control).

Hospitals, childcare and elderly homes

The majority of infections can be transmitted via linen. The Barrier laundry provides staff and patients with the highest standards of hygiene and level of protection against the spread of infection, avoiding cross contamination, while streamlining the laundry process.

Commercial laundries and sheltered workshop

Often the care and hospitality sectors turn to central commercial laundries to entrust their fabrics. In these cases, reliable solutions must be used from the hygiene and quality perspective. Barrier laundries thus become indispensable, an unparalleled must-have.

Pharmaceutical and food processing industries

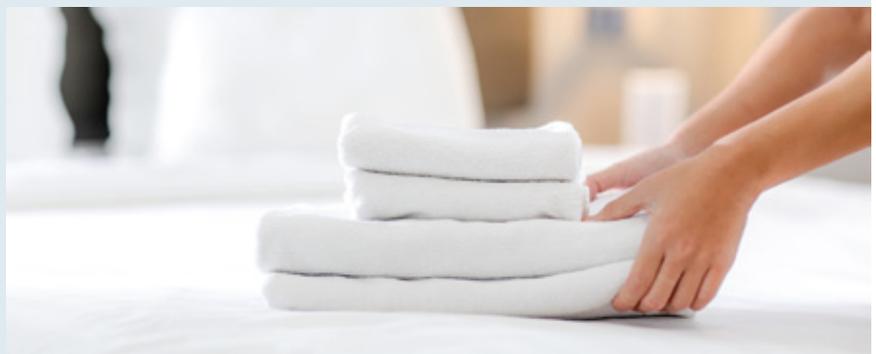

This sensitive segment must maintain a critically high standard of hygiene, while delivering top productivity levels. The barrier solutions are available with Cleanroom options, where strict controls to avoid particle contamination are required.

**Simple
servicing,
reliable
performance**

Essentia Customer Care: a dedicated service that becomes foremost for your competitive advantage.

From the moment of installation to the end of any equipment life time, we stand ready with comprehensive maintenance agreements based on our extensive knowledge, heritage and many years of designing laundry equipment.

Quality and hygiene without compromise

Provide your operators with an intuitive, safe and effortless work environment, where the highest productivity levels are achieved, reaching constantly the hygiene standards. **Everything under your complete control.**

Top level productivity

Thanks to an intuitive technology and usability, the Line 6000 Pullman Barrier Washers provides short cycle time and premium results.

Operators' well-being first

Ergonomically certified solutions for working safely.

Trustable hygiene

Set an option for each program to track if the cycles reached all the hygiene criteria and receive a real time message to be always informed and updated.

Great control and traceability

Monitor your equipment's status from anywhere and take action to improve your business process avoiding downtime.

ClarusVibe control, the newest and most performing of our interfaces, guarantees an **intuitive experience and smooth interaction**, providing a smart and effortless way to manage the process. **Fully self-explanatory**, it **saves time and boosts productivity**.

No instructions needed, it will guide you step by step!

Double Screen for easier use!

Dirty Side

Clean Side

ClarusVibe comes pre-set with all the programs you need, according to local regulations and the specifics of your business.

Enhanced usability, superior safety

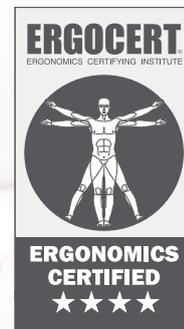

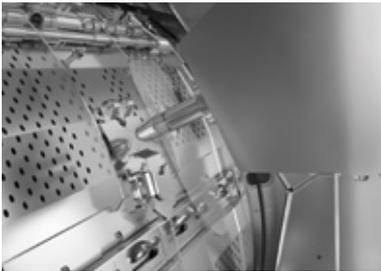

Our solutions gain the prestigious 4-star rating for the international ergonomics certification. They have been user-tested to make sure your operators will feel less tension and strain, resulting in more harmonious "physical & cognitive interaction", so they, and your business, can thrive.

Increasingly secure doors for greater productivity

Easiest and fastest unloading in the industry thanks to:

- Automatic drum positioning
- Automatic outer doors locking and unlocking
- Large door openings
- Easy to handle inner drum doors
- The drum is separated in 2 parts to split the load and to allow an easier and ergonomic unloading thanks to the gravity force
- Maximum ergonomics guaranteed thanks to our innovative opening mechanism that preopens the inner-drum doors automatically at the end of the wash cycle

Auto Inner
Door
Opening

Ergonomic interventions can reduce work-related musculoskeletal disorders (WMSDs) by **59%**, with an average decrease of **75%** in sick days and a **25%** increase in productivity.

Ergonomics rating	****	****	****

Robustly built to comply with strict international standards, our barrier washers offer the perfect solution for all cleanroom needs.

IWS - Integrated weighting system*

Your laundry is weighed automatically and the weight digitally displayed during loading. This not only **saves time, energy and resources** but avoids overloading and underloading, **extending the washer's lifetime.**

Double drain for water recycling*

Easily upgrade you barrier solution with a second drain valve. You can at any time decide to recycle and **save up to 50% on your water consumption.**

Indirect steam heating

Whether you want to optimize your energy consumption or have specific process requirements, you can choose the indirect steam heating.
