

Electrolux Laundry Systems Environmental Policy

Electrolux Laundry Systems recognizes the importance to play an active role in the preservation of our environment.

We will, within the framework of the product demands from our customers, show highest possible consideration to the environment.

Therefore, the Electrolux Laundry Systems Environmental Policy applies to **all employees** in Electrolux Laundry Systems, as well as to **all products and services** being provided by Electrolux Laundry Systems, regardless whether made within Electrolux Laundry Systems itself or purchased from outside suppliers.

Electrolux Laundry Systems is committed to ensure that our products, our services and our production is a part of a sustainable society, through Electrolux Laundry Systems Policies & Procedures and local Quality Management Systems

to

- *achieve continuous improvement*
- *train and engage our staff on environmental issues*
- *encourage our suppliers and subcontractors to adopt our environmental principles*

resulting in

- *products with reduced environmental impact in production, use and disposal*
- *products and production that comply with law, directives and local demands*
- *reached environmental targets*
