Line 6000 eco-range detergents: the natural choice to clean all linen and textiles

Running a laundry business implies some conscious choices. You want to offer your customers quality results through pristine linen. You also want to guarantee them that the chemicals used in the process are gentle to the environment, to the textiles and to the skin. At the same time you want to make sure your operation stays profitable and generates a revenue day after day.

Satisfying the requirements of the **EUROPEAN ECOLABEL** means respecting very strict specifications on raw materials, high performance criteria and rigorous environmental-friendly approach.

The EU Ecolabel helps you identify products and services that have a **reduced environmental impact throughout their life cycle**, from the extraction of raw material through to production, use and disposal.

Expand the sustainability of your business by choosing the right workmates

Ecolabel certified, dermatologically tested and hypoallergenic. Line 6000 eco-range detergents have been developed to offer high quality, safety and effectiveness ensuring low environmental impact.

L00 - Laundry Eco Degreaser
An efficient surfactant degreaser that is very active on animal fats and vegetable oils. Suitable for restaurant linen, work wear, and for treatment of stubborn oily stains, on items such as spa towels. Use it in addition to L02 and L03.

L01 - Laundry Eco Powder
High-performance powder detergent allowing a perfect cleaning with a minimum dose. Removes grease and stains protecting fabrics and colors. Lightly scented.

L02 - Laundry Eco Wash
Liquid detergent for all linen, with strong efficacy even at 30°C and low doses. Respects textile fibers and colors by giving them back the original luster.

L03 - Laundry Eco Booster
In case of difficult soil and in presence of hard/very hard water, L03 Laundry Eco Booster ensures high standard performances. Use in combination with L00, L01 or L02 detergents.

L04 - Laundry Eco Bleach
New generation of bleaching agent, effective even at 30°C while preserving textiles quality and colors.

L05 - Laundry Eco Softener
Slightly scented softener for pleasant textiles, easy ironing and with no residuals of static electricity.

Proud to be green

Communicate your choice to your customers and gain preference and extra trust.
