

Lint Collectors for Washers

Laundry Accessories

www.electroluxprofessional.com

Lint of Fluff collector is used to separate lint from wastewater. It is placed behind the washer and acts as a filter to prevent the drainpipe from becoming clogged, which could lead to flooding in the laundry room. These collectors are made in stainless steel for highest durability and have removable strainer plates for easy cleaning. Available in difference sizes such as: 25, 45, 75 and 100 liters. Note that the size of the collector should be in line with the washer capacity.
