Touch screen Clarus Vibe offers an intuitive and customized experience for your operators

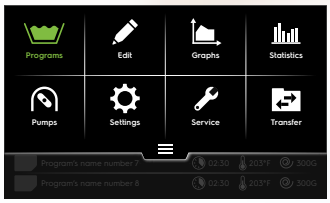
Great flexibility and usability

We start from your business needs. Our washers' design has been tested and crafted to make operations easy and ergonomic keeping in mind your operators wellbeing.

CLARUSVIBE

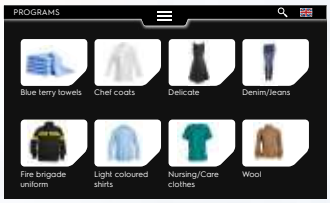
ClarusVibe control, guarantees an intuitive experience and smooth interaction, providing a **smart and effortless way to manage the wash process**.

Its intuitiveness **saves time** and **boosts productivity**. ClarusVibe comes pre-set with all the programs you need, according to local regulations and the specifics of your business.



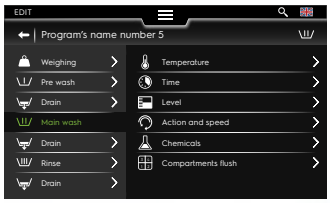
Full HD 7" color touchscreen

A clear and comprehensive layout gives users **full command of the process** without the need for searching and scrolling.



Intuitive & customizable

More productivity with an easy-to-use interface. You can even **set a customized picture** for each of your selected programs.



Fully editable programs

Easily set up **programs for anything**, from delicates to workwear and from surgical scrubs to plastic toys. You can update your library any time, directly on screen, without the need for a computer.

Multi-language

Compatible with all languages, even right-to-left scripts like Arabic. For international use or your multicultural team. Up to 34 languages available.

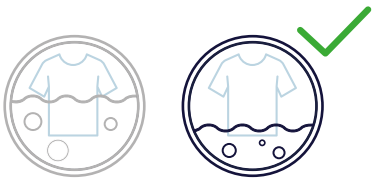
Reduce operating costs

Every water drop counts. The combination of our three innovative features works harmoniously together providing an intelligent washing which reduces running costs.

Automatic Savings

Not a drop of water wasted

Automatic Savings weighs the linens and adjusts the water intake to the actual load. This **saves water, energy and money** at anything less than full loads.



without **AS** with **AS**

Efficient Dosing

Boost your business with significant savings

With the **Efficient Dosing System** from Electrolux Professional your laundry solution will be more cost efficient than ever. You have full control over the wash process, and the high quality output guarantees an end to damaged linen or skin irritations caused by detergent overdosing.

Save over 30% on detergent costs.

Power Balance

Extraction sequence perfectly balanced

Power Balance translates to real-time unbalance monitoring and G factor adjustment throughout the extraction sequence, for **maximum dewatering** and lowest moisture retention to save you time and money in the drying process*.

Maximum **dewatering**

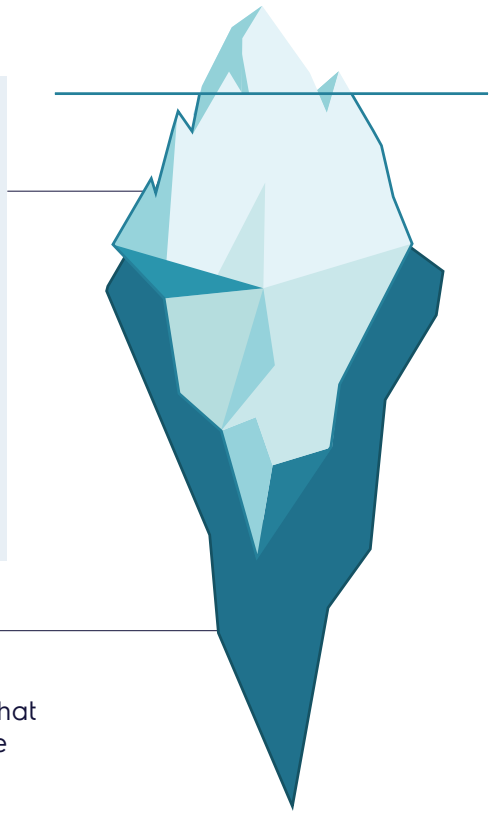
* Available on selected models.

Look under the surface

When considering the cost of an investment, the up-front expense is just the tip of the iceberg. Operating costs accumulated year after year make up the largest share of your operations expense. During the life cycle of your laundry equipment **our washers and dryers will cost you much less and make your investment more profitable**.

Our "iceberg" is slim

While other washers and dryers have **extensive lifetime costs**, we can represent ours with a slimmer iceberg shape because of the savings you will achieve thanks to its **money-saving features** and robust engineering.



10%
Up-front investment

90%
Life cycle costs
These costs make up **the bulk of your expenses** during the lifetime of your washer or dryer.

Protecting your operators

In laundry environments, ergonomics is crucial for efficiency and well-being of the operator. Solutions designed with user comfort in mind reduce physical strain for your operator. Our Egorcert certification promotes a workspace where tasks can be performed comfortably and with minimal risk of injury.

Experience 4 stars

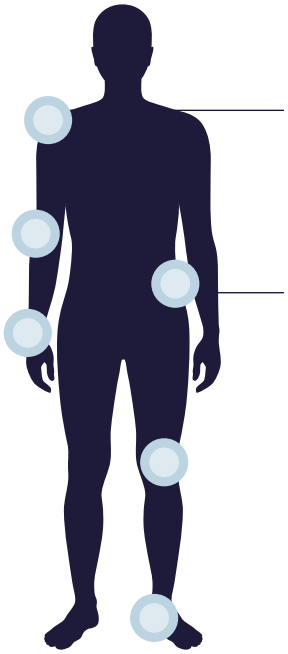
★★★★

Every washer and dryer included in the Line 6000 range is certified to international standards of ergonomics and human-centered design by ERGOCERT.

Processing several items daily means that actions are repeated constantly, therefore a user-friendly and intuitive solution can contributes to achieve the best output with less efforts from the operator's side.

Ergonomic interventions can reduce work-related musculoskeletal disorders (WMSDs) by **59**%, with an average decrease of **75**% in sick days and a **25**% increase in productivity.

Washington State Department of Labor & Industries



The more natural positioning of the screen and the door means that arm-shoulder stress or injury is no longer an issue for operators.

No more damage to back posture while picking up kilograms of linen thanks to an improved drum height. Less weight and stress for operators' knees and feet.

Beyond hygiene together with RISE

We look after the overall safety. Today our priority is to provide you, your customers and your staff with the confidence that your well-being is safeguarded allowing you to operate your business in the best possible way at all times.

Electrolux Professional partnered with Rise AB (Sweden's research institute and innovation Partner)

to identify and validate the **most suitable protocol** finalized at providing the **inactivation of pathogeninc microorganisms** in textlies through the laundry process.

Line 6000 washers through **Global Hygiene Advanced programs and hygiene process protocols** provide you with all you need to manage your laundry without concerns. Extensive tests performed in our R&D labs and thorough scientific evidence from RISE analyses, led us to a precise fine-tuning of every parameter, not only temperature and time, but also water level and load.

Resulting in our four global disinfection programs* for linen 65°, 70°, 90° and our mop program 85°

*Capacities from 6-35kg and must include integrated heating element)

If you require an HACCP certified laundry Electrolux Professional has you covered

Electrolux Professional offers you professional laundry equipment certified by **HACCP International,** ensuring the highest level of hygiene and safety, preventing contamination.

Trusted worldwide, Electrolux Professional sets the benchmark for laundry standards— helping local suppliers open doors for international prospects requiring plant uniforms to be processed in with HACCP certified laundry equipment
