

Frozen Granita Dispensers - I-PRO

Perfect granita any time, anywhere.

R290

gas reduces environmental impact

Innovation, performance and design

From small bars to high volume businesses. The slush consistency is perfectly maintained thanks to the **PATENTED** I-Tank technology**, the innovative design of the bowl controls and isolates the temperature from the summer heat

Keep customers safe with nUV LED* that sanitize the bowls, reducing bacterial proliferation ensuring a high quality, fresh product at all times.

Sleek and colorful, this dispenser will attract customers to a refreshing break.***

Slush your way to higher profits
